\*Ecoregions: Northern Lakes and Forests (NLF); Northern Minnesota Wetlands (NMW), North Central Hardwood Forest (NCHF); Western Corn Belt Plains (WCBP).

\*\*Overall Category:

<u>Category</u>	<u>Description</u>
1	All designated uses are met and no use threatened.
2	Some uses are met; none are threatened and insufficient data to assess other uses.
3A	No data or information to determine if any designated use is attained.
3B	Sufficient data are available for a 305(b) assessment of non-support, but insufficient data and information to determine TMDL impairment.
3C	Data available that currently has no assessment tools to allow its use in assessing.
3D	Sufficient data are available for a 305(b) assessment of full support, but insufficient data and information to assess for category 1 or 2.
3E	Sufficient data are available for a 305(b) assessment of partial support, but insufficient data and information to determine TMDL impairment.
4A	Impaired or threatened but all needed TMDL plans have been completed.
4B	Impaired or threatened but doesn't require a TMDL plan because it is expected to attain standards in the near future.
4C	Impaired or threatened but doesn't require a TMDL plan because impairment not caused by a pollutant.
4D	Impaired or threatened but doesn't require a TMDL plan because impairment is a result of natural causes.
5A	Impaired or threatened by multiple pollutants and no TMDL plans approved.
5B	Impaired or threatened by multiple pollutants and either some TMDL plans approved but not all or at least one impairment is the result of natural conditions.
5C	Impaired or threatened by one pollutant and no TMDL plan approved.

Assessment: Full Support (FS); Not Support (NS); Insufficient Data to Assess (IF); No Data (NA)  
Trophic State: Oligotrophic (O); Mesotrophic (M); Eutrophic (E); Hypereutrophic (H); Unknown (U).
