Date: _____

Instructions for Form AERA-24

1a) AQ Facility ID No. -- Fill in your Air Quality (AQ) Facility Identification (ID) Number (No.). This is the first eight digits of the permit number for all new permits issued under the operating permit program. If your facility has never been issued a permit under this program, leave this line blank.

2) Facility Name -- Enter your facility name.

This certification is required under Minn. R. 7007.0500, subp. 3. The certification must be signed by a “responsible official” (defined in Minn. R. 7007.0100, subp. 21), which is the person who performs policy or decision making functions for the company. (A delegate may be allowed in some cases. Please refer to the rule section listed above.) The certification also must be signed by a responsible official for each co-permittee. A co-permittee is a corporation, partnership, sole proprietorship, municipality, state, federal or other public agency other than the permittee that is either a owner or operator of the facility. If the permittee is the owner and a co-permittee is the operator (or vice-versa), then the responsible officials for both the permittee and the co-permittee must sign the certification.

It is recommended that you not sign the certification until you have completed your AERA and are ready to submit it. Do not modify or add to this form.
