

**Minnesota Pollution
Control Agency**

520 Lafayette Road North
St. Paul, MN 55155-4194

Lab Registration Form

Environmental Data Quality Unit
NPDES Permit Program

Doc Type: Permitting Registration Form

Instructions: The Minnesota Pollution Control Agency (MPCA) registration program applies to all Minnesota Municipal, Government or Industrial laboratories that perform analyses for National Pollutant Discharge Elimination System (NPDES) for permit compliance or water quality work.

Complete the form by typing or printing in black ink. Attach additional sheets as necessary. For more information, please contact Lab Registration Staff:

Sandy McDonald 651-757-2560 or Matt Lindon 651-757-2530
or e-mail: ga.questions.mPCA@state.mn.us

| MPCA use only |
|-------------------------------|
| |
| Permit Number |
| Date Received (MM/DD/YYYY) |

Applications that are submitted without an authorized signature will be returned. Please make a copy for your records.

Send the completed form to:

Attn: Sandy McDonald
Minnesota Pollution Control Agency
520 Lafayette Road North
St. Paul, MN 55155-4194

Permittee Information

Permittee name: _____ Permit number: MN
Mailing address: _____
City: _____ State: _____ Zip: _____
Telephone: _____ Fax: _____ E-mail: _____
Authorized agent: _____ Title: _____

Facility Information

Facility name: _____
Street address: _____
City/Township: _____ State: _____ Zip: _____
County: _____

Lab Contact Information

Contact name: _____
Mailing address: _____
City: _____ State: _____ Zip: _____
Telephone: _____ Fax: _____ E-mail: _____

Signature

By signing this registration form you are requesting acceptance to the MPCA's laboratory registration program for 2013.

Printed name: _____ Title: _____
Current or previous owner
Authorized signature: _____ Date: _____

Analysis Registration Requests

Facility name: _____

For Inorganic Chemistry, Metals, and Microbiology, enter the method for which you are requesting registration next to the analyte.

For Semi-volatiles, Volatiles and PCB/Pesticides, check the method box if you are requesting registration.

For Biosolids, please write in the parameters and methods for which you are requesting registration.

Inorganic Chemistry

| Analyte | Method |
|-------------------------------------|--------|
| Acidity as CaCO ₃ | |
| Alkalinity as CaCO ₃ | |
| Ammonia as N | |
| Biochemical oxygen demand (BOD) | |
| Bromide | |
| Carbonaceous BOD, CBOD | |
| Chemical oxygen demand | |
| Chloride | |
| Chromium VI | |
| Color | |
| Cyanide – Available | |
| Kjeldahl nitrogen – total, as N | |
| Nitrate as N | |
| Nitrate-nitrite as N | |
| Nitrite as N | |
| Oil and grease | |
| Orthophosphate as P | |
| Residue – filterable (TDS) | |
| Residue – nonfilterable (TSS) | |
| Residue – settleable | |
| Residue – total | |
| Residue – volatile | |
| Sulfate | |
| Sulfide | |
| Total Cyanide | |
| Total hardness as CaCO ₃ | |
| Total Organic Carbon | |
| Total Phenolics | |
| Total Phosphorus | |
| Turbidity | |

Metals

| Analyte | Method |
|-------------------------------------|--------|
| Aluminum | |
| Antimony | |
| Arsenic | |
| Barium | |
| Beryllium | |
| Boron | |
| Cadmium | |
| Calcium | |
| Chromium VI | |
| Cobalt | |
| Copper | |
| Iron | |
| Lead | |
| Magnesium | |
| Manganese | |
| Mercury | |
| Molybdenum | |
| Nickel | |
| Potassium | |
| Selenium | |
| Silver | |
| Sodium | |
| Thallium | |
| Tin | |
| Total chromium | |
| Total hardness as CaCO ₃ | |
| Vanadium | |
| Zinc | |

Microbiology

| Analyte | Method |
|---------------------------------------|--------|
| Escherichia coli | |
| Fecal coliforms | |
| Fecal coliforms with chlorine present | |

Semi-Volatile Organic Compounds

| Analyte | Method |
|------------|--------|
| Method 625 | |

Volatile Organic Compounds

| Analyte | Method |
|------------|--------|
| Method 624 | |

PCB/Pesticides

| Analyte | Method |
|------------|--------|
| Method 608 | |

Biosolids

| Analyte | Method |
|---------|--------|
| | |
| | |
| | |
| | |
| | |
| | |
| | |
| | |
| | |
| | |
