The MPCA is responsible for monitoring the status and trends of our states water resources. Each summer the MPCA visits streams and wetlands throughout the state, and conducts water-quality surveys and biological assessments. Sampling takes place in all corners of the state, from remote areas in the Boundary Waters Canoe Area Wilderness to trout streams in southeastern Minnesota to the prairies of western Minnesota.

To learn more about a paid summer seasonal position with the MPCA contact:

Aaron Onsrud

for jobs based in St. Paul

Email:

aaron.onsrud@state.mn.us

Phone: (651) 757-2630

or John Sandberg for jobs based in Brainerd

Email:

john.sandberg@state.mn.us

Phone: (218) 316-3913
