Tank and Waste Petroleum Recyclers

Tanks/Underground Storage Tanks #6.02 • July 2001

Contractors, who manage used petroleum tanks, tank bottom sediments, and fuel water mixtures are required to notify the Minnesota Pollution Control Agency (MPCA) of their activities. This list is a compilation of the contractors who have notified the MPCA that they intend to enter into a compliance agreement with the MPCA to become a registered recycler.

The MPCA does not endorse specific companies. The MPCA, by providing this list, does not imply that these companies are or are not providing services in compliance with applicable laws. The MPCA cautions generators (tank owners or operators) that they must insure that the companies used to manage the hazardous waste they may generate is dealt with properly and in compliance with requirements of state and federal law. The MPCA also cautions generators to personally evaluate the services and compliance records for any company used to manage their waste.

The MPCA will update this list from time to time as required.

Tank salvage yard's with no on-site recycling of tank bottoms

CMS Petroleum Equipment, Inc.
Mr. John Schultz
P.O. Box 85
Morris, Minnesota 56267
MNR000008755
800-930-4146
