

Hazardous Waste Generators

Are you responsible for managing hazardous waste at your facility? This ten-step introduction to hazardous waste (HW) management and compliance with Minnesota rules is designed for newcomers to the HW field and those who need a refresher. It covers how to evaluate to determine whether a waste is hazardous, handling, storage, transportation, emergency planning, employee training and record keeping requirements for those hazardous wastes.

This training does not cover PCB compliance and health care topics.

Workshop Agenda

HW Generator Compliance –

Check-in: 1/2 hour before workshop begins

The HW Generator workshop provides an overview of the “10 Steps to Compliance” — the steps necessary for generators to comply with Minnesota’s hazardous waste rules:

1. Evaluate waste; determine generator size
2. Get an EPA identification number
3. Get a license; pay the fee
4. Choose and mark containers correctly
5. Store and accumulate waste correctly
6. Transport and dispose of waste Properly
7. Manifest the waste
8. Plan for emergencies
9. Train personnel
10. Keep records

This training does not cover PCB compliance and health care topics.

Registration

- Preregistration and prepayment are required. (Purchase orders will only be accepted from governmental organizations. Billing is not an option.)
- No walk-in registrants will be accepted.
- No registration confirmation will be sent.
- Registration is managed on a first-come, first served basis. Registrants will be notified if their workshop is filled.

Refunds

To receive a refund, you must cancel at least 48 hours before the workshop.
