Exclusion from Phosphorus Limit, PIP and Annual Compliance Report

Minnesota River Basin General Phosphorus Permit – Phase I

Date Received		
Month	Day	Year

Any facility listed in Appendix B of the Minnesota River Basin General Phosphorus Permit – Phase I (Basin Permit) as of the date of issuance (i.e. December 1, 2005) is eligible to apply for an exclusion from their 5-Month Mass Phosphorus Limit, Pre-season Implementation Plan (PIP) and Annual Compliance Report requirements (Requirements) of the Basin Permit, provided they meet the conditions established in Chapter 5, subpart 2 of the Basin Permit.

The following are the two types of exclusion allowed by the Basin Permit:

A. Compliance Agreement - Permittees who have executed a compliance agreement with the MPCA by April 1, 2008, which requires a 1.0 mg/L phosphorus limit in their individual NPDES/SDS permit prior to expiration of this Basin Permit are excluded from the Requirements of this Basin Permit (identified above); and

B. Annual Exclusion - Permittees with a 1.0 mg/L phosphorus limit listed in their individual NPDES/SDS permit which are not participating in pollutant trading and have submitted a completed Exclusion Application Form to the MPCA Commissioner by April 30th of a calendar year are excluded from the Requirements (identified above) during that calendar year.

The exclusion is not effective until the Permittee has received a Notice of Exclusion from the MPCA. Permittees which have received a Notice of Exclusion are still subject to all other applicable permit requirements of both their individual NPDES/SDS permit as well as the requirements of the Basin Permit. To apply for this exclusion, complete this Exclusion Application Form and submit it to the following address: WQ Submittal Center, Minnesota Pollution Control Agency, 520 Lafayette Road North, St. Paul, MN 55155-4194.
