RP-D4

Option D Flow Diagram
Air Quality Permit Program

- 1) AQ Facility ID No. (if known): _____
- 2) Facility Name: _____
- 3) Flow Diagram: _____

Form RP-D4 Instructions

- 1) **AQ Facility ID No.** -- Fill in your Air Quality Facility ID Number as indicated on Form RP-01, item 1a. If you do not have this information, leave it blank.
- 2) **Facility Name** -- Enter your facility name as indicated on Form RP-01, item 2.
- 3) **Flow Diagram** -- To produce a complete flow diagram for your air emission permit application, start by showing all emission units except insignificant activities. Show the flow pathway of materials into each emission unit. Examples include fuel oil piping into a boiler or a conveyor feeding a rock crusher. Show the pathway of air emissions from each emission unit to each stack or vent. If more than one emission unit are connected to a single stack, indicate this on the diagram. Show all air pollution control equipment, all fugitive emission sources, and all storage tanks, except those classified as insignificant activities. You may use this sheet or attach another drawing provided it includes all of the information requested. If you attach another drawing or additional sheets, please include the AQ Facility ID No. and Facility Name in the upper left hand corner of each additional sheet.

The following figure is an example of what a process flow diagram might look like:

NOTE: "SV" refers to a stack or vent.
