# Land Application Contract Appliers

Water Quality/Land Application/#8.01/March 2008

The Minnesota Pollution Control Agency (MPCA) maintains the following list of Land Application Contractors solely as service to Minnesota businesses that may require these types of services. This is not necessarily a complete list of available services. Other firms offering similar services may not appear on this list because the MPCA is unaware of their activities in this area. The companies appear in alphabetical order.

The list below does not endorse specific companies. The MPCA, by providing this list, does not imply that the companies are or are not providing services complying with applicable laws. The MPCA cautions Minnesota businesses that they are responsible for ensuring that the contractors they use comply with the requirements of state and federal law. This list is updated periodically.
