For more information3

This list contains the names of businesses that the State of Minnesota holds contracts with to provide environmental emergency response services. These contractors are defined as either full-service or limited service and this refers to the list of tasks that are required under the negotiated contract.

This list is provided for informational purposes only; it is not an endorsement, and anyone using it is advised to check the capabilities and rates of contractors.

Services provided by full-service contractors

Some of the required tasks of a full-service contractor include:

- Toll-free, 24-hour telephone answering.
- 24-hour, statewide response.
- Level A, B, C and D responses.
- Provide vacuum truck(s).
- Supply and deliver sorbents (booms, pads, sweeps, pillows, etc.) to responses.
- Investigate, contain and recover spills/releases on land, including the excavation of contaminated soils.
- Investigate, contain and recover spills/releases to surface waters using containment booms, sorbents, vacuum trucks and pumps.

- Investigate and mitigate petroleum vapor and product in sewer systems and utility conduits.
- Investigate, contain, sample, transport and manage known and unknown abandoned wastes or mystery spills or releases.
- Collect, preserve and transport samples to laboratories for analysis. Follow established sample-collection protocols and methodology.
- Collect, assess and analyze air contaminant levels during a chemical fire, tire fire or other fire causing air contaminant concerns.
- Design, install, operate and troubleshoot mechanical systems such as carbon filtration systems and groundwater remediation systems.
- Arrange for transportation, storage and proper management of wastes generated during an emergency response.
- Assist with the management and disposal of wastes generated from terror and natural disaster incidents.
- Biomedical and infectious waste containment, transport and disposal.

To report a spill at any time, day or night, call the Minnesota Duty Officer at (651) 649-5451 or toll-free at (800) 422-0798.

Full-service contractors
