

Investing in Clean Water

With the Legacy Amendment funds set to expire in 2034, it's time for a close look at how to best maximize those funds to protect and restore Minnesota's water. We also need a smart, balanced approach for utilizing public-private partnerships and other sources of funding to enhance the state's investment. This session will capture ideas about how to leverage Minnesotans' investment in clean water. We will discuss balancing public and private costs and sources of funding.

Key Questions

- Who is responsible for clean water?
- Where should resources for clean water come from?
- How do we leverage the Clean Water fund?
