

The MPCA does not recommend specific vendors to install/repair Stage 1 Vapor Recovery on gasoline Underground Storage Tanks (USTs) at your facility. Please check the state contract, ask one of your current vendors, or see the full list below for companies on the Certified Contractors list for the Underground Storage Tank (UST) program. The MPCA is not recommending any one vendor but it is believed that there are a few main companies that do these installations/repairs in the metro area: MN Petroleum, Westmor, O'Day, Pump & Meter, Zahl, B&H, Midwest Liquid Systems, Seneca Companies, Rochester Petroleum, Valley Petroleum and R&R. **If you are a vendor interested in being on this list, please contact the MPCA Underground Storage Tank program or visit the website: <https://www.pca.state.mn.us/waste/underground-storage-tank-systems>**
