

Hydraulic conductivity values  
 for zones of preferential flow (ft/day)  
 k1 407  
 k2 63

% of total transmissivity  
 37  
 63

Modeled using a total well transmissivity of 1100 ft<sup>2</sup>/day

♦ injected @ 5.4 gal/min  
 ■ ambient  
 (84% of measured flow)

--- interpreted injected flow  
 ——— interpreted ambient flow

— injected
