

**Minnesota Pollution Control Agency**

---

**Major Source Modification  
and  
New Source Review Reform**

---

**Training Manual**

---

Produced for the Minnesota Pollution Control Agency by  
Barr Engineering Company under Contract No. A55426  
Project No. 23/62-869, June 2004

# Major Source Modification and New Source Review Reform Training Manual

## Table of Contents

Chapter 1: Introduction	
1.1.	Who is this manual for—and who is it not for? ..... 1-2
1.2.	What is covered in this manual? ..... 1-2
1.3.	Changes, Modifications and Permit Amendments ..... 1-3
1.4.	How this Manual is Organized ..... 1-8
Chapter 2: Calculations	
2.1.	Overview ..... 2-2
2.2.	Regulatory Differences in Calculations ..... 2-2
2.3.	Components of an Air Emission Calculation ..... 2-8
2.4.	Documentation of Emission Calculations ..... 2-21
Chapter 3: Major Permit Amendment	
3.1.	Overview ..... 3-2
3.2.	Title I modifications ..... 3-4
3.3.	Other Changes Triggering a Major Permit Amendment ..... 3-26
3.4.	Case-by-Case Limits to Avoid Applicability ..... 3-28
3.5.	New Options Under NSR Reform ..... 3-30
Chapter 4: Putting It All Together	
4.1.	Overview ..... 4-2
4.2.	State Applicability ..... 4-2
4.3.	Defining Permit Conditions and Requirements ..... 4-6
4.4.	The Complete Permit Application ..... 4-19
Chapter 5: NSR/PSD Permit	
5.1	Overview ..... 5-2
5.2	Control Technology Review from 40 CFR § 52.21(j) ..... 5-2
5.3	Source Impact Analysis from 40 CFR § 52.21(k)-(m) ..... 5-4
5.4	Source Information from 40 CFR § 52.21(n) ..... 5-5
5.5	Additional Impact Analysis from 40 CFR § 52.21(o) ..... 5-5
5.6	Class I Area Impacts Analyses from 40 CFR § 52.21(p) ..... 5-6
5.7	Public Participation from 40 CFR § 52.21(q) ..... 5-6
5.8	Approval to Construct from 40 CFR § 52.21(r) ..... 5-6
5.9	Environmental Impact Statement from 40 CFR § 52.21(s) ..... 5-6
5.10	PSD Permit Issuance Process ..... 5-7

## Table of Contents (continued)

Chapter 6: SIP- or Modeling-Based Limit	
6.1. Overview of Ambient Air Quality Standards (NAAQS and MAAQS) .....	6-2
6.2. Current Status of Minnesota Air Quality .....	6-3
6.3. State Implementation Plan Administrative Orders.....	6-3
Chapter 7: Changes That Don't Require a Major Permit Amendment	
7.1. Overview .....	7-2
7.2. Insignificant Activities .....	7-2
7.3. Administrative Amendment .....	7-6
7.4. Contravening Permit Terms.....	7-8
7.5. Determining Moderate or Minor Amendments and Insignificant Modifications.....	7-10
7.6. Moderate Permit Amendment .....	7-13
7.7. Minor Permit Amendment.....	7-14
7.8. No permit amendment required .....	7-15
Chapter 8: Dispersion Modeling Analysis	
8.1. Overview .....	8-2
8.2. PSD Modeling Overview .....	8-2
8.3. Dispersion Modeling Protocol.....	8-3
8.4. NSR Reform.....	8-8
8.5. Additional Impacts Analysis .....	8-10
8.6. MPCA Review Procedures.....	8-11
8.7. Resources.....	8-12
Chapter 9: Environmental Review	
9.1. Overview .....	9-2
9.2. Mandatory Environmental Review Triggers .....	9-3
9.3. Non-Threshold Environmental Reviews.....	9-5
9.4. Phased and Connected Actions .....	9-6
Chapter 10: Air Emissions Risk Analysis	
10.1. Overview .....	10-2
10.2. What Triggers the Requirement to Conduct an AERA? .....	10-2
10.3. Outline of an AERA Process .....	10-3
10.4. Using the AERA Results.....	10-3
10.5. Timing Considerations .....	10-3
10.6. Guidance .....	10-4
Chapter 11: Blue Ox Woodworks Example	
11.1. History of Blue Ox Woodworks .....	11-2
11.2. Description of the Change .....	11-2
11.3. Emissions Calculations .....	11-3
11.4. Applicability Determination.....	11-4
11.5. Other Permitting Options Considered/to Consider.....	11-5

## Table of Contents (continued)

### Appendices

- Appendix A: Acronyms and Glossary
- Appendix B: Current Status of NSR Reform
- Appendix C: Confidentiality Guidance
- Appendix D: Blank Forms
- Appendix E: Completed Blue Ox Forms

### Figures

- Figure 1-1. General Permit Applicability Flow Chart
- Figure 1-2. Major Permit Amendment Applicability Flow Chart
- Figure 1-3. NSR/PSD Applicability Flow Chart
- Figure 1-4. Miscellaneous Major Permit Amendment Triggers Flow Chart
- Figure 1-5. Non-Major Permit Amendment Applicability Flow Chart
- Figure 2-1: Example Form EC-02 Showing CO Emission Calculations & Documentation for Simple Facility

### Tables

- Table 2-1. Minn. R. 7011.0070, subp. 1, Table A:  
Listed Control Equipment And Control Equipment Efficiencies
- Table 6-1. National Ambient Air Quality Standards (NAAQS)
- Table 6-2. Minnesota Ambient Air Quality Standards (MAAQS)
- Table 8-1. PSD Significant Emission Rates (SERs)
- Table 8-2. National and Minnesota Ambient Air Quality Standards, PSD Increments, and Significant Impact Levels
