

Wastewater Class D Math Webinar

Training

Thursday, July 30, 9:30 a.m. – 12 p.m.
Friday, July 31, 9:30 a.m. – 12 p.m.

Cost \$150

Location Online

You will receive an email 2-3 days before the event with instructions and a link to join this training via Microsoft Teams.

Hours

You must attend both sessions: July 30 and July 31, 2026 until 12 p.m. to receive 5 WW hours.

Please note: Math webinars are not offered to rehearse or memorize how to answer wastewater exam questions, and they do not provide attendees with correct answers for specific exam questions.

Description

Math Webinars are offered as a refresher to help wastewater operators prepare for solving math problems associated with Class D job descriptions. This webinar will cover essential math skills including how to convert units of measure and the order of operations. The webinar provides opportunities to practice solving common math problems and attendees will work through solving math problems step-by-step with guidance from instructors. Math problems include pond discharge math, pump calibration, geometric mean, converting units, using common formulas, percent removal, loading, detention time, and calculating volume, area, velocity, and perimeter. This webinar is intended to refresh basic knowledge related to need-to-know content for Class D operators.

No exam at this webinar. Other exams and events can be found at:
