

2024 Spring Solid Waste Landfill Operator Training

for Continuing Education

Type II and III Solid Waste Facility Operator Certification Training

Continuing Education courses bring certified operators together to explore current trends and issues in solid waste management. Each one-day training features flexible course content with presentations and activities covering regulatory compliance, health/safety concerns, operational challenges, and a facility tour.

Continuing Education courses are appropriate for Type II and Type III operators to renew a solid waste certification. Type II certification requires 18 contact hours over three years; Type III certification requires 6 contact hours over three years.
