

Environmental specifications

Contract release P-661(5) industrial paper products: tissue, towels, napkins, and wipers

Option B specifications. Each item number provides a Georgia Pacific identification number and a corresponding description which together establish the minimum specification. Responders may provide alternate product, but the product must meet minimum standard identified through the Georgia Pacific identification number in both quality and general description (i.e. "1-Ply", "2-Ply", or "Multi Ply") The State reserves the right to request additional information, including but not limited to, a narrative as to how the product is an approved equal and/or samples as deemed in the State's best interest.

- ❖ All products submitted under Option B **must** meet the environmental criteria detailed in the subcategories below. The Responder certifies in its response, that the product meets the certifications and standards outlined in the specifications below. Upon request by the State, the responder shall provide evidence to confirm the following:
 - Products proposed meet the required Green Seal or EcoLogo certifications and/or standards, the product must be listed on the appropriate certifier or product standards list.
 - That the recycled content, including postconsumer content, has been verified by the manufacturer in one of three ways, listed below. In each instance, the product must have both total recycled content and postconsumer content.
 - Listed by the product SKU# on the manufacturer's website
 - Listed on the product label
 - Verified in writing, by SKU#, by the manufacturer
