

Minnesota's TMDL Commitments

Federal Fiscal Year 2027–2028

September 2026

Minnesota's Total Maximum Daily Load (TMDL) Studies Prioritization Framework 2022–2032 (Framework) describes Minnesota's long-term TMDL program priorities, a rationale for selecting those priorities, and a general strategy for implementing the goals of the U.S. Environmental Protection Agency's (EPA's) 2022–2032 Vision. Accompanying the Framework are a series of two-year TMDL commitment lists, which reflect the TMDL program priorities laid out in the Framework. The Framework and TMDL Commitments are posted on the Minnesota Pollution Control Agency's (MPCA's) [TMDL guidance](https://www.pca.state.mn.us/business-with-us/tmdl-guidance)¹ webpage.

This biennial TMDL commitment list includes TMDLs that MPCA commits to being approved by EPA and TMDLs that MPCA commits to having in development during the federal fiscal year two-year period (October 1, 2026–September 30, 2028).
