Subject: Re: Notice of a proposed change to the training requirements for re-certification of Type IV operators and inspectors
Date: Monday, January 14, 2019 9:48:28 AM

Ms. Nankivel, please enter the following comment into the record regarding the proposed change for Type IV certification.

I am in favor of the proposed amendment to the rule for continuing education requirements for Type IV operators. It is burdensome and expensive to have to stay overnight at a hotel simply to get an additional 3 hours of training to comply with the current 9 hour requirement. I believe a full day of continuing education is sufficient to insure that land application is being done properly, and the environment is being protected.

Thank you for the opportunity to comment.

Greetings, Carol. I am very much in favor of the proposal to change the requirement for Type IV recertification to six hours from nine. I think that this is a very logical decision. Is this email sufficient to register my opinion during the comment period?

Thank you,

Al

Greetings Carol,

I am in support of the proposal to change the number of hours of training for Type IV certification from 9 hours to 6 hours every 3 years. It will save WLSSD significant money and time required for certification.

Sincerely,

Todd MacMillan
