

Animal feedlots rulemaking

Request for
comments

The Minnesota Pollution Control Agency (MPCA) is proposing to change existing rules regulating animal feedlots.

The MPCA is updating feedlot rules (Minn. R. ch. 7020) to improve land application of manure, and establish additional technical standards. Revisions will also address changes in livestock and poultry operation business practices, account for new agency data services, and modernize rule language.

We want to hear from you

- Share your feedback on the proposed feedlot rulemaking.
- Comments must be submitted in writing to the Office of Administrative Hearings (OAH) and received by Tuesday, **July 22, 2025, at 4:30 p.m.**

Virtual public meeting to learn more

- Virtual webinar, **May 19, 2025, 1 p.m.**
- The webinar will be recorded and posted to the rulemaking page.

The MPCA will also host in-person public information sessions throughout the state in June. Exact dates and locations for these meetings are available on the rule-specific web page.
