Control Owner Name Telephone Fax Agency ext ext Contractor Name Telephone Fax MPCA use only ext. ext. White-MPCA Contacts @ Inspection Telephone Fax Canary-Site copy ☐ Complaint ☐ Routine Inspection Date /Time Weather Conditions Type of Inspection Delta record Unpermitted site (red bolded areas) MN R100001-C000 Discharge to Appendix A Waters Stormwater Permit Identification Number Date Construction Started Change of Coverage Needed VIOLATIONS **Erosion Control Practices During Construction** check violations 1) Pond side slopes MISSING temporary protection or permanent cover Separate basin checklist completed? yes ☐ no ☐ Normal wetted perimeter of temporary or permanent (connected) ditch that drains water is NOT stabilized within 24 hrs (200' back from surface water) h) Other exposed, erodable soils w/ positive slopes MISSING stabilization BMPs (installed in appropriate or functional manner) Localized Widespread d) Temporary or permanent energy dissipation (w/i 24 hour) MISSING at outlets connected to surface water Description of Violations: 2) **Sediment Control Practices During Construction** check violations ■ Widespread Failure to adequately control or minimize sediment discharges (additional upgradient controls required) ☐ Localized a) MISSING temporary sedimentation basins (disturbance > 10 acres, or > 5 acres near special water areas) b) Inlet control BMPs NOT functional or missing c) Perimeter controls MISSING downgradient prior to land disturbing activities d) Description of Violations: 3) Maintenance check violations a) Erosion and sediment control BMPs needs repair, replacement or enhancement Temporary sedimentation basin maintenance NOT performed (collected sediment > ½ basin volume) b) c) Sediment deposits in ditches or surface waters NOT removed, describe affected area or water ☐ Localized ■ Widespread ☐ Localized Widespread d) Sediment tracking on paved surfaces at exits Description of Violations:

SWPPP NOT on site

Infiltration/filtration

DNR **permit** required

SWPPP not reviewed at inspection

c2) Turbid discharges to surface waters or causing erosion off site

Check management method

Alternative method

yes 🗌 no 🔲

SWPPP ON site □

Regional pond

c1) Dewatering Activities

If yes: WCA permit required ☐

Inspections/maintenance (1 per 7 days or 24 hours of .0.5 inch precip.) MISSING: date, name, findings, corrective actions, rainfall, changes to SWPPP

1 acre or more of new impervious surface added

National Pollutant Discharge Elimination System (NPDES) / State Discharge System (SDS) Construction Stormwater Program

4) Inspections check violations

Wet sedimentation basin

Project causing wetland impacts

Description of Violations:

Description of Violations:

5)

a)

b)

Stormwater Pollution Prevention Plan (SWPPP):

Stormwater management (site hydrology)

When required, pretreatment MISSING

6) Management Pollu	tion Prevention	a) Solid	waste NOT disposed of	of properly	b)	Hazardous materials NOT in secondary containment or/and NOT restricted access						
c) Did NOT define a external washing	areas for construction vehicles	d) Did NO post a sign	Γ define concrete wasl	nout areas on site and								
Description of Violatio	ns:											
Violations	☐ Site NOT in complia	nce	Sediment disc	harge (documented)		Enforcement referral						
Corrective Action	_		Corrective Act	ions left on site		Corrective Actions mailed or faxed						
Recommendation	Penalty Action		Stop Work Ord	ler	Additional inspection							
	tate law provides for civil and criminal po	enalties for violatio	ns of a NPDES/SDS Permit	and water quality laws. Civil p	enaltie	es could range up to \$10,000.00 per day per violation.						
Evidence												
Collected ☐ Photographs						() - ext.						
Documents	Received by As the owner, general contractor, employ	ee and/or agent for	either Permittee,	Stormwater Inspect	or	Telephone Number						
☐ Sample ☐ Site size det.	I hereby acknowledge receipt of this Inspagreement or disagreement with the information of the second secon	ection Report. My s	ignature does not imply	☐ MPCA	F	Other

A **Letter of Warning (LOW)** is a notice to a regulated party that documents violations discovered during an inspection, complaint follow-up or review of submittals. The LOW typically includes a reference of the statute, rule, permit condition or checklist that is violated. The LOW typically requires the regulated party to complete specific corrective actions to return the facility to compliance. The LOW usually gives a regulated party between 7-30 days to complete required corrective actions.

A **Request for Information (RFI)** is a notice to a regulated party requiring information. Occasionally additional information is required to determine the status of compliance or for a regulated party to respond to violations discovered. This information can be used to determine if elevated enforcement (including penalties) is appropriate.

All **Corrective Actions** (**LOW or RFI**) are requirements to correct field conditions and to come into compliance with the permit, statute or rules and must be responded to in the period noted on this field report. This response (including any lack of response) is considered by the MPCA and future enforcement for the violations discovered.
