Subject: Enbridge Energy, Limited Partnership
Line 3 Replacement Project
Application for an Individual NPDES/SDS Permit

To MPCA:

Enbridge Energy, Limited Partnership (“Enbridge”) submits this updated application for an Individual National Pollutant Discharge Elimination System/State Disposal System (“NPDES/SDS”) Permit for industrial process wastewater discharged during construction of Line 3 Replacement Project (“Project”). This application package is intended to capture the revisions to the original permit application package submitted to Minnesota Pollution Control Agency (“MPCA”) on September 21, 2018. Revisions are based on feedback on the original application from the MPCA and Minnesota Department of Natural Resources while reflecting changes in Enbridge employee roles and responsibilities.

The following enclosed documents comprise Enbridge’s updated application:

- Permit Application Checklist for Industrial Wastewater (wq-wwprm7-04b);
- Transmittal Form (wq-wwprm7-03);
- Industrial Surface Water Discharge of Process Wastewater Application Form (wq-wwprm7-20);
- Industrial Land Discharge of Process Wastewater Application Form (wq-wwprm7-21);
- Industrial Chemical Additives Attachment (wq-wwprm7-48); and
- Application for an Individual NPDES/SDS Permit Supplemental Information, which includes the Antidegradation Assessment (Attachment A) and Infiltration Analysis and Plan (Attachment G).

If you have any further questions or require additional information on the Project, please call me at (218) 522-4751 or contact me by email at bobby.hahn@enbridge.com. You may also contact Angela Ronayne of Merjent, Inc., Enbridge's environmental consultant, at (612) 746-3669 or by email at angie.ronayne@merjent.com.

Sincerely,

Enbridge Energy, Limited Partnership
